What did this TA do well, and what could they work on?

Comments
The slides were great and the lectures helpful.
There could be more clarity with homework problem questions but overall the handwritten slide notes were helpful to learn from.
The TA is responsive to emails. He always responds to emails in timely manners. If there is any confusion, he would provide examples to clarify the concept. It seems he wants every student to succeed.
I'm not sure how much can be done about this, but the Friday sessions were sometimes a bit hard to follow. Maybe there was just a lot of content that had to be covered. But Harry was clearly extremely knowledgeable and could always answer student questions thoroughly, and mixed in some dry humor into discussion sections. Overall he did a pretty good job.
